# GREENSPOT: MAKE A WALKING MAP FOR YOUR SCHOOL!

Walking or riding the bus to school is one thing that keeps Green Spot, green. Use the space below to draw routes where you could walk to places around your school. Try to draw routes to as many of the things on this list below as you can! Try to pick routes to walk where you feel safe, where there are crosswalks, and where there are sidewalks. If you can't find a route where you feel safe, draw how you would like the street to look so that it is safe for walking.
